CUBA 2.0 · UNIVERSAL EDUCATION

Newsletter 07: Education.

Free, universal public schooling.
Kindergarten through 12th grade. Every child.

UNIVERSAL K–12 · POLICY

Every child.
A place to learn.

A free public education from kindergarten through 12th grade, with quality teaching and the support every child needs to participate.

> **Access must be real.** A place in school, accessible classrooms and support for children with disabilities or different learning needs.

UNIVERSAL K–12 · TEACHERS

Quality starts with the teacher.

Teachers need pay, materials and support to focus on teaching. NL05 sets the education salary ladder in dollars.

BAND	EDUCATION ROLE	MONTHLY USD
E1	Entry / support	$200–$300
E2	Technicians / assistants	$300–$400
E3	Teachers / mid-level	$400–$600
E4	Specialized teachers / techs	$500–$700
E5	Senior / specialist educators	$700–$1,000
E6	Specialists	$700–$1,500
E7	Senior specialists / leads	$1,500–$2,500
E8	Department heads / experts	$2,500–$5,000

TEACHING QUALITY

Support the people in the classroom.

Provide practical teacher training, continuing professional development and reliable classroom materials. Build a clear route into teaching and opportunities to grow within the profession.

Keep learning at the center.

Use classroom assessment to identify where students need help. Give teachers time and tools to respond, and keep families informed about learning and progress.

> Pay and practical support make quality teaching possible.

UNIVERSAL K–12 · SCHOOLS & SKILLS

Strong foundations.
Open futures.

Quality schools and classrooms.

Renovate school buildings, classrooms and toilets. Make safe drinking water, reliable power, ventilation and accessible spaces part of the school standard. Equip classrooms with books and useful learning materials.

A curriculum for life.

Build strong foundations in reading, writing, mathematics and science. Include history, the arts, physical education and civic understanding. Teach students to ask questions, think critically and solve problems.

Connected, capable students.

Bring reliable internet and digital tools into schools, alongside the skills to use them safely and productively. Develop communication, teamwork and practical skills as part of learning.

After 12th grade: more than one path.

Make university, technical and vocational education, apprenticeships and work meaningful routes forward. Help students understand their options and connect further study with real opportunities.

> **A supporting program inside the K–12 system:**
> The second half of this issue presents the National School Food Program. Its current proposal covers grades 1 to 9.
